ISOMETRIC VIEW

Isometric view of a mechanical assembly. The assembly consists of a cylindrical shaft passing through a rectangular block. The shaft has a diameter of 1.50 and a length of 1.50. The rectangular block has a width of 1.50 and a height of 1.50. The shaft is positioned such that its centerline is 0.50 from the bottom and 0.50 from the right side of the block. The shaft is labeled with '1.50' and '1.50'. The rectangular block is labeled with '1.50' and '1.50'. The assembly is shown in an isometric view with dimensions and labels.
